

Description:

Mobile Scrubber trommel

Mobile Scrubber-Trommel is rotary scrubber and trommel screen Integration of one set.

Mobile Scrubber-Trommel consist of three major parts, hopper, rotary scrubber and trommel screen.

Mobile parts is composed by chassis, wheels, turntable.

From hopper to rotary scrubber to wash ore, Then to trommel screen for screening. rotary scrubber and trommel screen Integration of one set, Greatly save the cost and the space.

Feature:

- 1: Save the space and the cost.
- 2: Good washing and screening effect for sticky clay material.
- 3: Low operating cost, easy maintenance, low noise.
- 4: The length & diameter of drum can be customized.
- 5: Easy to moving.

Scrubber-trommel Technical Specifications

Model	Capacity (t/h)	Drum diameter (mm)	Drum total length(according to your material decide scrubber and trommel length (mm)	Screen size (mm)
ST1245	20-30	1200	4500	5-20
ST1560	50-60	1500	6000	
ST1860	80-100	1800	6000	
ST2060	100-150	2000	6000	
ST2265	200	2200	6500	

Application:

Gold and diamond plant processing

Portable gold mining equipment

WELL-TECH EQUIPMENT
威尔国际矿业装备

Scrubber With frame for moving together
